

Witnessing the life of Christ

New photography book shows Christ in a whole new light

A new book is bringing families closer to Christ than ever before.

Fine art photographer Mark Mabry's book, *Reflections of Christ*, is a unique witness of the Lord Jesus Christ through the stunning realism of photography. (See a slide show preview at ReflectionsofChrist.org).

Mabry's images of New Testament-era scenes from the life of Christ are unprecedented in the medium of photography. The photographs of the Nativity, his miracles, and his death and resurrection are making people feel like they are personally witnessing the Savior's most awe-inspiring moments.

"Words truly cannot describe the magnitude of these outstanding photos," said Paula, a customer who bought the book. "Christ is illustrated in such a beautiful and magnificent way. What touched me most was the way Christ is smiling and laughing with the children... just as it really would have been."

Parents can use the book as the ultimate teaching tool with children, as they share stories of Christ while looking at a photograph of the Savior. Popular radio host Bob Lonsberry (WHAM and KNRS) said he uses the book nightly as he tucks his children into bed. "You can just open to a page and tell a story about Jesus, and this is the illustration for it," Lonsberry said. "It's been extraordinarily useful and very beneficial to our family in that regard."

Mabry's images of Christ are fast-becoming internationally known to people of many Christian faiths. The 31-year-old photographer first displayed an exhibit of the photos in Mesa, Ariz. last January and it was an immediate hit. More than 100,000 people saw it there, and more than 1.5 million from around the world have clicked online to see Mabry's images.

That led to a North American tour, a coffee table book of the images, a making-of DVD and a CD of the music that plays in the exhibit. The exhibit is currently touring Canada and the U.S., including stops in California, Utah, Idaho, Arizona, Texas, Massachusetts, Louisiana, and Washington D.C.

The book, DVD and music CD of *Reflections of Christ* is available at Amazon.com, Barnes and Noble, and wherever inspirational products are sold. For more information, visit ReflectionsofChrist.org.

About the Author

Mark Mabry studied art photography at the Brooks Institute of Photography at Santa Barbara, California. He owns a photography studio and is a professional photographer focusing on family and commercial portraiture. *Reflections of Christ* is his first book. Mark and his wife, Tara, and their three young children live in Mesa, Arizona.
